**Product datasheet**

**Anti-Abhd5 antibody ab59488**

1 References  2 Images

### Overview

**Product name**
Anti-Abhd5 antibody

**Description**
Goat polyclonal to Abhd5

**Host species**
Goat

**Specificity**
This antibody is not expected to cross-react with ABHD4.

**Tested applications**
Suitable for: WB, ELISA

**Species reactivity**
Reacts with: Mouse, Cow, Human

**Predicted to work with:** Rat, Sheep, Dog, Pig, Orangutan

**Immunogen**
Synthetic peptide: C-FPERPDLADQDR, corresponding to internal sequence amino acids 181-192 of Human Abhd5

**Positive control**
A431 and NIH-3T3 cell line lysates.

### Properties

**Form**
Liquid

**Storage instructions**
Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

**Storage buffer**
Preservative: 0.02% Sodium Azide
Constituents: 0.5% BSA, Tris saline, pH 7.3

**Purity**
Immunogen affinity purified

**Purification notes**
Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.

**Clonality**
Polyclonal

**Isotype**
IgG

### Applications

Our **Abpromise guarantee** covers the use of ab59488 in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.
**Function**
Lysophosphatidic acid acyltransferase which functions in phosphatidic acid biosynthesis. May regulate the cellular storage of triacylglycerol through activation of the phospholipase PNPLA2. Involved in keratinocyte differentiation.

**Tissue specificity**
Widely expressed in various tissues, including lymphocytes, liver, skeletal muscle and brain. Expressed by upper epidermal layers and dermal fibroblasts in skin, hepatocytes and neurons (at protein level).

**Involvement in disease**
Defects in ABHD5 are the cause of Chanarin-Dorfman syndrome (CDS) [MIM:275630]; also called triglyceride storage disease with impaired long-chain fatty acid oxidation or neutral lipid storage disease with ichthyosis. CDS is an autosomal recessive inborn error of lipid metabolism with multisystemic accumulation of triglycerides although plasma concentrations are normal. Clinical characteristics are congenital generalized ichthyosis, vacuolated leukocytes, hepatomegaly, myopathy, cataracts, neurosensory hearing loss and developmental delay. The disorder presents at birth with generalized, fine, white scaling of the skin and a variable degree of erythema resembling non-bullous congenital ichthyosiform erythroderma.

**Sequence similarities**
Belongs to the peptidase S33 family. ABHD4/ABHD5 subfamily.

**Developmental stage**
Detected in fetal epidermis from 49 to 135 days estimated gestational age (at protein level).

**Domain**
The HXXXXD motif is essential for acyltransferase activity and may constitute the binding site for the phosphate moiety of the glycerol-3-phosphate.

**Cellular localization**
Cytoplasm. Lipid droplet. Colocalized with PLIN and ADRP on the surface of lipid droplets. The localization is dependent upon the metabolic status of the adipocytes and the activity of PKA.

</tr>
</thead>
</table>

Anti-Abhd5 antibody (ab59488) at 1 µg/ml + A431 cell line lysate (35 µg protein in RIPA buffer)

**Predicted band size:** 39 kDa

**Observed band size:** 38 kDa

Primary incubation was 1 hour. Detected by chemiluminescence.

**Our Abpromise to you: Quality guaranteed and expert technical support**

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit [http://www.abcam.com/abpromise](http://www.abcam.com/abpromise) or contact our technical team.

**Terms and conditions**

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
