

Product datasheet

DIDS ab120277

Overview

Product name	DIDS
Description	Generic chloride channel blocker.
Biological description	Stilbene disulfonate that inhibits anionic transport. Used to inhibit Cl ⁻ uptake through plasma membrane-localized Cl ⁻ channels in order to study chloride transport. Also effectively inhibits various sodium-coupled bicarbonate transporters. Reacts with CD4 glycoprotein on T helper lymphocytes and macrophages, blocking HIV type-1 growth at multiple stages of the viral life cycle.
General notes	Fluorescence: max. Abs. I = 341, max. Em. I = 415 (in water).

Properties

Excitation	341nm
Emission	415nm
Chemical name	4,4'-Diisothiocyano-2,2'-stilbenedisulfonic acid disodium salt
Molecular weight	498.50
Chemical structure	
Molecular formula	C ₁₆ H ₈ N ₂ Na ₂ O ₆ S ₄
CAS Number	67483-13-0
Storage instructions	Store at -20°C. It is important to note that this product is reported to be light sensitive. Store in the Dark. Store under desiccating conditions.
Solubility overview	Soluble in DMSO and in water
Handling	<p>Wherever possible, you should prepare and use solutions on the same day. However, if you need to make up stock solutions in advance, we recommend that you store the solution as aliquots in tightly sealed vials at -20°C. Generally, these will be useable for up to one month. Before use, and prior to opening the vial we recommend that you allow your product to equilibrate to room temperature for at least 1 hour.</p> <p>Need more advice on solubility, usage and handling? Please visit our frequently asked questions (FAQ) page for more details.</p>
Source	Synthetic

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
- Abcam biochemicals are novel compounds and we have not tested their biological activity in house. Please use the literature to identify how to use these products effectively. If you require further assistance please contact the scientific support team
