

Product datasheet

Recombinant rat Hsp70 protein ab91602

2 Images

Overview

Product name Recombinant rat Hsp70 protein
Protein length Full length protein

Description

Nature Recombinant
Source Escherichia coli
Amino Acid Sequence
Species Rat

Specifications

Our [Abpromise guarantee](#) covers the use of **ab91602** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Biological activity ATPase Activity Assay: Positive
Applications Western blot
 Functional Studies
 SDS-PAGE
Purity > 90 % SDS-PAGE.
 Purified by Multi-step chromatography. >90% pure as determined by SDS-PAGE and Western blot analyses. This protein does not contain DnaK as demonstrated by western blot analysis using anti-DnaK.
Form Liquid

Preparation and Storage

Stability and Storage Shipped on dry ice. Upon delivery aliquot and store at -80°C. Avoid freeze / thaw cycles.
 Preservative: None
 Constituents: 50mM Tris HCl, 100mM Sodium chloride, 1mM DTT, 0.1mM PMSF, pH 7.5
 This product is an active protein and may elicit a biological response in vivo, handle with caution.

General Info

Function

In cooperation with other chaperones, Hsp70s stabilize preexistent proteins against aggregation and mediate the folding of newly translated polypeptides in the cytosol as well as within organelles. These chaperones participate in all these processes through their ability to recognize nonnative conformations of other proteins. They bind extended peptide segments with a net hydrophobic character exposed by polypeptides during translation and membrane translocation, or following stress-induced damage. In case of rotavirus A infection, serves as a post-attachment receptor for the virus to facilitate entry into the cell.

Tissue specificity

HSPA1B is testis-specific.

Sequence similarities

Belongs to the heat shock protein 70 family.

Cellular localization

Cytoplasm. Localized in cytoplasmic mRNP granules containing untranslated mRNAs.

Images

SDS-PAGE Analysis of 0.5 µg ab91602

SDS-PAGE - Hsp70 protein (Active) (ab91602)

All lanes : Anti-Hsp70 Monoclonal Antibody
at 1 µg/ml

Lane 1 : Molecular weight markers

Lane 2 : ab91602 at 0.1 µg

Western blot - Hsp70 protein (Active) (ab91602)

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
