

Product datasheet

Vacuum manifold for 96 well filter plates ab204067

Firefly®

1 Image

Overview

Product name Vacuum manifold for 96 well filter plates

Product overview This manifold is suitable for vacuum filtration with standard 96-well filter plates. It can work with assays using the Firefly® particles but is also compatible with non-Firefly assays.

The manifold includes a vacuum control assembly and 3/8" ID tubing to interface with the user's vacuum trap. The control assembly includes a gauge that indicates the vacuum level applied to the filter plate. Fine vacuum control is enabled via a set-point knob.

Notes See protocol tab for vacuum manifold handbook.

Firefly® is a registered trade mark in the United States and is registered as a European Union Trade Mark.

Properties

Storage instructions Store at room temperature. Please refer to protocols.

| Components | 1 units |
|-----------------------|---------|
| 3/8inch ID tubing | 1 unit |
| Vacuum Gauge | 1 unit |
| Vacuum Manifold Base | 1 unit |
| Vacuum Manifold Frame | 1 unit |

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
