

Product datasheet

# Vacuum manifold for 96 well filter plates ab204067

FirePlex<sup>®</sup>

1 Image

Overview

**Product name** Vacuum manifold for 96 well filter plates

**Product overview** This manifold is suitable for vacuum filtration with standard 96-well filter plates. It can work with assays using the Firefly<sup>®</sup> particles but is also compatible with non-Firefly assays.

The manifold includes a vacuum control assembly and 3/8" ID tubing to interface with the user's vacuum trap. The control assembly includes a gauge that indicates the vacuum level applied to the filter plate. Fine vacuum control is enabled via a set-point knob.

**Notes** See protocol tab for vacuum manifold handbook.  
Firefly<sup>®</sup> is a registered trade mark in the United States and is registered as a European Union Trade Mark.

Properties

**Storage instructions** Store at room temperature. Please refer to protocols.

Components	1 units
3/8inch ID tubing	1 unit
Vacuum Gauge	1 unit
Vacuum Manifold Base	1 unit
Vacuum Manifold Frame	1 unit

### **Our Abpromise to you: Quality guaranteed and expert technical support**

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.com/abpromise> or contact our technical team.

### **Terms and conditions**

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
