

Product datasheet

# Anti-Prostaglandin dehydrogenase 1 antibody [1C12] ab118005

1 Image

Overview

---

<b>Product name</b>	Anti-Prostaglandin dehydrogenase 1 antibody [1C12]
<b>Description</b>	Mouse monoclonal [1C12] to Prostaglandin dehydrogenase 1
<b>Host species</b>	Mouse
<b>Tested applications</b>	<b>Suitable for:</b> WB
<b>Species reactivity</b>	<b>Reacts with:</b> Human
<b>Immunogen</b>	Full length recombinant Human Prostaglandin dehydrogenase 1 produced in HEK293T cells (NP_000851).
<b>Positive control</b>	HEK293T cell lysate transfected with pCMV6-ENTRY Prostaglandin dehydrogenase 1 cDNA.
<b>General notes</b>	Dilute in PBS (pH7.3) before use. Stable for 12 months from date of receipt.

Properties

---

<b>Form</b>	Liquid
<b>Storage instructions</b>	Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid repeated freeze / thaw cycles.
<b>Storage buffer</b>	pH: 7.30 Preservative: 0.02% Sodium azide Constituents: 1% BSA, 50% Glycerol, 48% PBS
<b>Purity</b>	Protein G purified
<b>Purification notes</b>	ab118005 is purified from Mouse ascites fluid by affinity chromatography.
<b>Clonality</b>	Monoclonal
<b>Clone number</b>	1C12
<b>Isotype</b>	IgG1

Applications

---

Our [Abpromise guarantee](#) covers the use of **ab118005** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
WB		1/2000. Predicted molecular weight: 29 kDa.

## Target

<b>Function</b>	Prostaglandin inactivation. Contributes to the regulation of events that are under the control of prostaglandin levels. Catalyzes the NAD-dependent dehydrogenation of lipoxin A4 to form 15-oxo-lipoxin A4. Inhibits in vivo proliferation of colon cancer cells.
<b>Tissue specificity</b>	Detected in colon epithelium (at protein level).
<b>Involvement in disease</b>	<p>Defects in HPGD are the cause of primary hypertrophic osteoarthopathy autosomal recessive (PHOAR) [MIM:259100]; also known as pachydermoperiostosis autosomal recessive. Primary hypertrophic osteoarthopathy is characterized by digital clubbing, osterarthopathy, variable features of pachydermia, delayed closure of the fontanels, and congenital heart disease.</p> <p>Defects in HPGD are the cause of cranioosteoarthopathy (COA) [MIM:259100]. Clinical features include infantile onset of swelling of the joints, digital clubbing, hyperhidrosis, delayed closure of the fontanels, periostosis, and variable patent ductus arteriosus. Pachydermia is not a prominent feature.</p> <p>Defects in HPGD are a cause of isolated congenital nail clubbing (ICNC) [MIM:119900]; also called clubbing of digits or hereditary acropachy. ICNC is a rare genodermatosis characterized by enlargement of the nail plate and terminal segments of the fingers and toes, resulting from proliferation of the connective tissues between the nail matrix and the distal phalanx. It is usually symmetrical and bilateral (in some cases unilateral). In nail clubbing usually the distal end of the nail matrix is relatively high compared to the proximal end, while the nail plate is complete but its dimensions and diameter more or less vary in comparison to normal. There may be different fingers and toes involved to varying degrees. Some fingers or toes are spared, but the thumbs are almost always involved.</p>
<b>Sequence similarities</b>	Belongs to the short-chain dehydrogenases/reductases (SDR) family.
<b>Cellular localization</b>	Cytoplasm.

## Images

Western blot - Anti-Prostaglandin dehydrogenase 1 antibody [1C12] (ab118005)

**All lanes :** Anti-Prostaglandin dehydrogenase 1 antibody [1C12] (ab118005) at 1/2000 dilution

**Lane 1 :** HEK293T lysate transfected with pCMV6-ENTRY control cDNA

**Lane 2 :** HEK293T lysate transfected with pCMV6-ENTRY Prostaglandin dehydrogenase 1 cDNA

Lysates/proteins at 5 µg per lane.

**Predicted band size:** 29 kDa

HEK293T cell lysates were generated from transient transfection of the cDNA clone (RC204160)

**Please note:** All products are "FOR RESEARCH USE ONLY AND ARE NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE"

### Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.com/abpromise> or contact our technical team.

### Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
