

Product datasheet

HDAC substrate, colorimetric (Boc-Lys(Ac)-pNA) ab144392

Overview

Product name	HDAC substrate, colorimetric (Boc-Lys(Ac)-pNA)
Description	Colorimetric substrate for histone deacetylases (HDAC)
Purity	> 98%
General notes	This product is manufactured by BioVision, an Abcam company and was previously called 2207 HDAC Substrate, Colorimetric. 2207-100 is the same size as the 100 mg size of ab144392.

Chemical structure

Properties

Chemical name	Boc-Lys(Ac)-pNA
Molecular weight	408.45
Molecular formula	C ₁₉ H ₂₈ N ₄ O ₆
Storage instructions	Store at -20°C. Store In the Dark. Store under desiccating conditions. This product is air and light sensitive and impurities can occur as a result of air oxidation or due to metabolism by microbes.
Solubility overview	Soluble in DMSO
Handling	Unstable; make up solutions fresh and use immediately. Need more advice on solubility, usage and handling? Please visit our frequently asked questions (FAQ) page for more details.
Source	Synthetic

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES, NOT FOR USE IN HUMANS"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
- Abcam biochemicals are novel compounds and we have not tested their biological activity in house. Please use the literature to identify how to use these products effectively. If you require further assistance please contact the scientific support team
