

### Anti-EBNA 3C antibody ab16128

★★★★★ 1 Abreviews 8 References

#### Overview

<b>Product name</b>	Anti-EBNA 3C antibody
<b>Description</b>	Sheep polyclonal to EBNA 3C
<b>Host species</b>	Sheep
<b>Specificity</b>	This antibody is specific for the Epstein Barr Virus Nuclear Antigen 3C.
<b>Tested applications</b>	<b>Suitable for:</b> ELISA, ICC/IF, IHC-Fr
<b>Species reactivity</b>	<b>Reacts with:</b> Epstein-Barr virus
<b>Immunogen</b>	Recombinant full length protein corresponding to Epstein-Barr virus EBNA 3C.
<b>General notes</b>	<p>EBNA 3C is a latent viral nuclear protein expressed in EBV transformed lymphoblastic cell lines and is essential for EBV mediated transformation of these cell lines. This viral nuclear protein is essential for EBV mediated positive immunoblastic lymphomas, and functions as a transcription factor.</p> <p><b>Source:</b> Sheep were immunized with recombinant EBNA-3C protein</p> <p><b>Formulation:</b> Provided as solution in phosphate buffered saline with 0.08% sodium azide.</p> <p>The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.</p> <p>If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&amp;As</p>

#### Properties

<b>Form</b>	Liquid
<b>Storage instructions</b>	Shipped at 4°C. Upon delivery aliquot. Store at -20°C. Avoid freeze / thaw cycle.
<b>Storage buffer</b>	Preservative: 0.08% Sodium azide Constituent: PBS
<b>Purity</b>	Ammonium Sulphate Precipitation
<b>Purification notes</b>	Purified by ammonium sulfate precipitation This antibody is provided as a 0.2µm sterile filtered solution.

<b>Clonality</b>	Polyclonal
<b>Isotype</b>	IgG

## Applications

**The Abpromise guarantee** Our **Abpromise guarantee** covers the use of ab16128 in the following tested applications. The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
ELISA		Use at an assay dependent concentration.
ICC/IF		Use at an assay dependent concentration.
IHC-Fr		Use at an assay dependent concentration.

## Target

**Relevance** EBNA 3C is a latent viral nuclear protein expressed in EBV transformed lymphoblastic cell lines and is essential for EBV mediated transformation of these cell lines. This viral nuclear protein is essential for EBV mediated positive immunoblastic lymphomas, and functions as a transcription factor.

**Please note:** All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

## Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

## Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
