### Product datasheet

## Anti-Paramyxovirus Type 3 antibody ab33637

Overview

**Product name** Anti-Paramyxovirus Type 3 antibody

**Description** Chicken polyclonal to Paramyxovirus Type 3

Host species Chicken

**Specificity** This antibody is monospecific.

Tested applications Suitable for: ELISA

**Species reactivity** Reacts with: Paramyxovirus sp.

**Immunogen** Tissue, cells or virus corresponding to Paramyxovirus Type 3.

**General notes**The Life Science industry has been in the grips of a reproducibility crisis for a number of years.

Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets

your needs before purchasing.

If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be

found below, along with publications, customer reviews and Q&As

**Properties** 

Form Liquid

Storage instructions Shipped at 4°C. Store at +4°C short term (1-2 weeks). Add glycerol to a final volume of 50% for

extra stability and aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.

Storage buffer Constituent: Whole serum

**Purity** Whole antiserum

Purification notes This antibody is a sterile filtered serum produced in SPF (Specific Pathogen Free) chicken

embryos.

**Clonality** Polyclonal

**Isotype** IgY

**Applications** 

The Abpromise guarantee Our Abpromise guarantee covers the use of ab33637 in the following tested applications.

1

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
ELISA		Use at an assay dependent concentration.

#### **Target**

#### Relevance

The family of Paramyxoviridae contains viruses that induce a wide range of distinct clinical illnesses in humans. These include measles virus, which in rare instances is followed by subacute sclerosing panencephalitis (SSPE); mumps virus, which has symptoms of parotitis, orchitis and encephalitis, and the parainfluenza viruses which are respiratory pathogens.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

#### Our Abpromise to you: Quality guaranteed and expert technical support

- · Replacement or refund for products not performing as stated on the datasheet
- · Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- · We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <a href="https://www.abcam.com/abpromise">https://www.abcam.com/abpromise</a> or contact our technical team.

#### Terms and conditions

• Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
