Anti-UGT1A9 antibody ab88517

★★★★★ 1 Abreviews 1 References 3 Images

Overview

Product name Anti-UGT1A9 antibody

Description Mouse polyclonal to UGT1A9

Host species Mouse

Tested applications Suitable for: WB, IHC-P

Species reactivity Reacts with: Human

Immunogen Recombinant full length protein within Human UGT1A9 aa 1-550. The exact immunogen sequence

used to generate this antibody is proprietary information. If additional detail on the immunogen is needed to determine the suitability of the antibody for your needs, please **contact** our Scientific

Support team to discuss your requirements.

Positive control Human liver tissue lysate Transfected 293T cell lysate Human small intestine tissue

General notesThe Life Science industry has been in the grips of a reproducibility crisis for a number of years.

Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets

your needs before purchasing.

If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be

found below, along with publications, customer reviews and Q&As

Properties

Form Liquid

Storage instructions Shipped at 4°C. Upon delivery aliquot and store at -20°C or -80°C. Avoid repeated freeze / thaw

cycles.

Storage buffer pH: 7.40

Constituent: 100% PBS

Purity Protein A purified

Clonality Polyclonal

Isotype IgG

Applications

1

The Abpromise guarantee

Our <u>Abpromise guarantee</u> covers the use of ab88517 in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
WB	★★★★☆ (1)	Use a concentration of 1 µg/ml. Predicted molecular weight: 60 kDa.
IHC-P		Use a concentration of 3 µg/ml.

Target

Function UDPGT is of major importance in the conjugation and subsequent elimination of potentially toxic

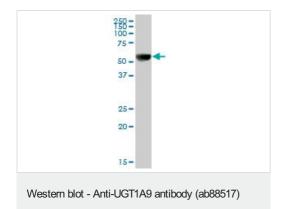

xenobiotics and endogenous compounds. This isoform has specificity for phenols.

Tissue specificity Liver.

Sequence similarities Belongs to the UDP-glycosyltransferase family.

Cellular localization Microsome. Endoplasmic reticulum membrane.

Images

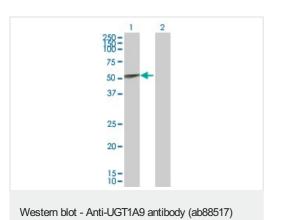

Anti-UGT1A9 antibody (ab88517) at 1 μ g/ml + Human liver tissue lysate at 50 μ g

Secondary

Goat anti-mouse IgG at 1/5000 dilution

Predicted band size: 60 kDa

All lanes: Anti-UGT1A9 antibody (ab88517) at 1 µg/ml

Lane 1: UGT1A9 transfected 293T cell lysate

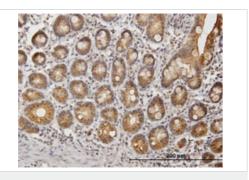

Lane 2: Untransfected 293T cell lysate

Lysates/proteins at 25 µg per lane.

Secondary

All lanes : Goat anti-mouse IgG at 1/5000 dilution

Predicted band size: 60 kDa **Observed band size:** 58 kDa

Immunohistochemistry (Formalin/PFA-fixed paraffinembedded sections) - Anti-UGT1A9 antibody (ab88517)

Immunoperoxidase staining of Human small intestine tissue using ab88517 at 3 $\mu g/ml$

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- · Extensive multi-media technical resources to help you
- · We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

• Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
