

## London Chromatin Club Meeting

Gustave Tuck Lecture Theatre  
University College London  
16<sup>th</sup> September 2008

In association with **Abcam**

**Chaired By**  
Andy Bannister  
University of Cambridge

### PROGRAMME

- 14.00hrs      Opening comments from Andy Bannister
- 14.05hrs      **Rob Klose** (Department of Biochemistry, Oxford University)  
**Probing the JmjC domain-containing histone demethylase family**  
Q & A Session
- 14.35hrs      **Natasha Murzina** (Department of Biochemistry, University of Cambridge)  
**The interaction of histone H4 and RbAp46 via a H4 folding rearrangement**  
Q & A Session
- 15.05hrs      **Ozan Aygun** (Cancer Research UK, London Research Institute)  
**Unbiased proteomic survey of chromatin-associated human RNAP II reveals new components of the transcription machinery**  
Q & A Session
- 15.35 – 16:05hrs      Tea, coffee and biscuits in the Wilkins lower refectory
- 16:05hrs      A few words from Abcam  
Abarna Thiru, Business Development Associate
- 16:15hrs      **Richard Jenner** (University College London)  
**Genome-wide analysis of transcription factor binding and histone modifications in human T-cells**  
Q & A Session
- 16:45hrs      Invited speaker:  
**Alexandre Akoulitchev** (Oxford BioDynamics Limited)  
**From Non-coding RNA to High-Order Structures**  
Q & A Session
- 17.25hrs      Closing comments from Andy Bannister
- 17:30 – 18:30hrs      Wine and nibbles in the Wilkins lower refectory
- 18:30hrs      Pub
