

Product datasheet

Recombinant Human FGF 23 protein ab104163

1 Image

Overview

---

**Product name** Recombinant Human FGF 23 protein  
**Protein length** Full length protein

Description

---

**Nature** Recombinant  
**Source** Escherichia coli  
**Amino Acid Sequence**  
**Accession** [Q9GZV9](#)  
**Species** Human  
**Sequence** **MKHHHHH**HA**EAEDDSERDPLNVLKPRARMTPAPAS**  
**CSQELPSAEDNSPMA**  
**SDPLGVVRGGRVNTHAGGTGPEGCRPFAKFI**  
**Molecular weight** 9 kDa including tags  
**Amino acids** 180 to 251  
**Tags** His tag N-Terminus

Specifications

---

Our [Abpromise guarantee](#) covers the use of **ab104163** in the following tested applications.  
 The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

**Applications** SDS-PAGE  
 Western blot  
**Form** Lyophilised  
**Additional notes** Product is not sterile! Please filter the product by an appropriate sterile filter before using it in the cell culture.

Preparation and Storage

---

**Stability and Storage** Shipped at 4°C. Store at -80°C.  
 pH: 7.50

Constituents: 0.242% Tris, 0.29% Sodium chloride

## Reconstitution

Add deionized water to prepare a working stock solution of 0.5 mg/ml and let the lyophilized pellet dissolve completely. Aliquot reconstituted protein to avoid repeated freezing/thawing cycles and store at -80°C for long term storage. Reconstituted protein can be stored at 4°C for a week.

## General Info

### Function

Regulator of phosphate homeostasis. Inhibits renal tubular phosphate transport by reducing SLC34A1 levels. Upregulates EGR1 expression in the presence of KL (By similarity). Acts directly on the parathyroid to decrease PTH secretion (By similarity). Regulator of vitamin-D metabolism. Negatively regulates osteoblast differentiation and matrix mineralization.

### Tissue specificity

Expressed in osteogenic cells particularly during phases of active bone remodeling. In adult trabecular bone, expressed in osteocytes and flattened bone-lining cells (inactive osteoblasts).

### Involvement in disease

Defects in FGF23 are the cause of autosomal dominant hypophosphataemic rickets (ADHR) [MIM:193100]. ADHR is characterized by low serum phosphorus concentrations, rickets, osteomalacia, leg deformities, short stature, bone pain and dental abscesses.

Defects in FGF23 are a cause of hyperphosphatemic familial tumoral calcinosis (HFTC) [MIM:211900]. HFTC is a severe autosomal recessive metabolic disorder that manifests with hyperphosphatemia and massive calcium deposits in the skin and subcutaneous tissues.

### Sequence similarities

Belongs to the heparin-binding growth factors family.

### Post-translational modifications

Following secretion this protein is inactivated by cleavage into a N-terminal fragment and a C-terminal fragment. The processing is effected by proprotein convertases.

O-glycosylated by GALT3. Glycosylation is necessary for secretion; it blocks processing by proprotein convertases when the O-glycan is alpha 2,6-sialylated. Competition between proprotein convertase cleavage and block of cleavage by O-glycosylation determines the level of secreted active FGF23.

### Cellular localization

Secreted. Secretion is dependent on O-glycosylation.

## Images

14% SDS-PAGE:

Lane 1: M.W. marker – 14, 21, 31, 45, 66, 97 kDa

Lane 2: Reduced and boiled sample, 5µg/lane.

Lane 3: Non-reduced and non-boiled sample, 5µg/lane.

SDS-PAGE - Recombinant Human FGF 23 protein  
(ab104163)

### **Our Abpromise to you: Quality guaranteed and expert technical support**

---

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
  
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

### **Terms and conditions**

---

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
