Anti-CD42b antibody [SP219] - Low endotoxin, Azide free ab246709

Recombinant RabMAb

7 Images

Overview

Product name	Anti-CD42b antibody [SP219] - Low endotoxin, Azide free
Description	Rabbit monoclonal [SP219] to CD42b - Low endotoxin, Azide free
Host species	Rabbit
Tested applications	Suitable for: Flow Cyt, IHC-P, IHC-Fr
Species reactivity	Reacts with: Mouse, Human Predicted to work with: Dog 
Immunogen	Synthetic peptide within Human CD42b aa 600 to the C-terminus (C terminal). The exact sequence is proprietary. Database link: P07359
Positive control	IHC-P: Human spleen and bone marrow tissue. IHC-Fr: Mouse spleen tissue Flow Cyt: Mouse splenocytes cells, Jurkat and HEL cells.
General notes	FOR RESEARCH USE ONLY. For commercial use, please contact partnerships@abcam.com . ab246709 is a carrier-free antibody designed for use in antibody labeling, including fluorochromes, metal isotopes, oligonucleotides, enzymes.

Our [Low endotoxin, azide-free formats](#) have low endotoxin level (≤ 1 EU/ml, determined by the LAL assay) and are free from azide, to achieve consistent experimental results in functional assays.

This product is a recombinant monoclonal antibody, which offers several advantages including:

- High batch-to-batch consistency and reproducibility
- Improved sensitivity and specificity
- Long-term security of supply
- Animal-free production

For more information [see here](#).

Reproducibility is key to advancing scientific discovery and accelerating scientists' next breakthrough.

Abcam is leading the way with our range of recombinant antibodies, knockout-validated antibodies and knockout cell lines, all of which support improved reproducibility.

We are also planning to innovate the way in which we present recommended applications and species on our product datasheets, so that only applications & species that have been tested in our own labs, our suppliers or by selected trusted collaborators are covered by our Abpromise™ guarantee.

In preparation for this, we have started to update the applications & species that this product is Abpromise guaranteed for.

We are also updating the applications & species that this product has been “predicted to work with,” however this information is not covered by our Abpromise guarantee.

Applications & species from publications and Abreviews that have not been tested in our own labs or in those of our suppliers are not covered by the Abpromise guarantee.

Please check that this product meets your needs before purchasing. If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, as well as customer reviews and Q&As.

Properties

Form	Liquid
Storage instructions	Shipped at 4°C. Store at +4°C. Do Not Freeze.
Storage buffer	pH: 7.20 Constituent: PBS
Carrier free	Yes
Purity	Protein A/G purified
Purification notes	Purified from TCS by protein A/G. Endotoxin level is less than 1 EU/ml as determined by the TAL test.
Clonality	Monoclonal
Clone number	SP219
Isotype	IgG

Applications

Our [Abpromise guarantee](#) covers the use of **ab246709** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
Flow Cyt		Use at an assay dependent concentration. ab199376 - Rabbit monoclonal IgG, is suitable for use as an isotype control with this antibody.
IHC-P		Use at an assay dependent concentration. Perform heat mediated antigen retrieval with citrate buffer pH 6 before commencing with IHC staining protocol.
IHC-Fr		Use at an assay dependent concentration.

Target

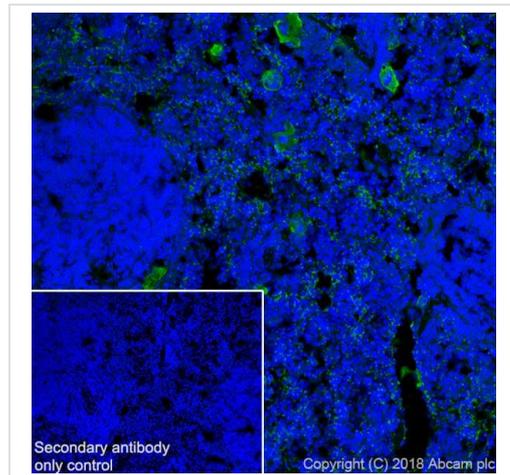

Relevance

CD42b is a platelet activation marker involved in the process of coagulation as an aggregating factor. It interacts with extracellular matrix as well as with adhesion molecules. Its expression and activation seems to be regulated by VEGF and PDGF.

Cellular localization

Cell Membrane

Immunohistochemistry (Frozen sections) - Anti-CD42b antibody [SP219] - Low endotoxin, Azide free (ab246709)

Immunohistochemistry (Frozen) analysis of mouse spleen tissue section labeling CD42b with purified [ab183345](#) at 1/100 (1.9 µg/ml). Sections were fixed in 4% paraformaldehyde and permeabilized with 0.2% Triton X-100. Antigen retrieval was heat mediated antigen retrieval using sodium citrate buffer (10mM citrate pH 6.0 + 0.05% Tween-20). Goat anti rabbit IgG (Alexa Fluor® 488, [ab150077](#)) was used as the secondary antibody at 1/1000 (2 µg/ml) dilution. DAPI was used as nuclear counterstain. PBS instead of the primary antibody was used as the secondary antibody only control.

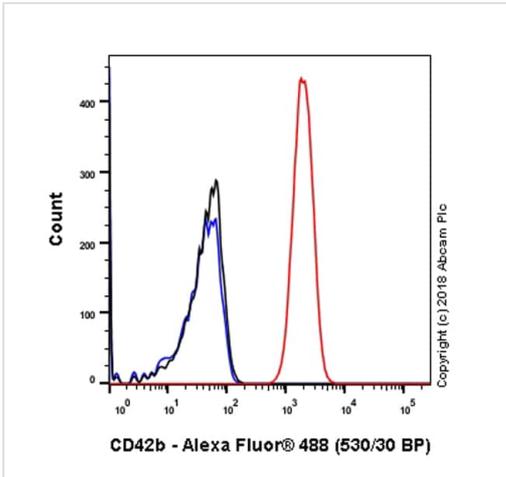

This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

Flow Cytometry - Anti-CD42b antibody [SP219] - Low endotoxin, Azide free (ab246709)

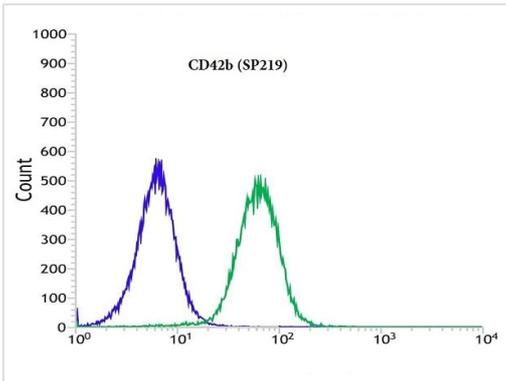

Flow cytometry analysis of mouse splenocytes cell labeling CD42b with purified [ab183345](#) at 1/20 dilution (9.7 µg/ml) (red). Cells were fixed with 4% paraformaldehyde and permeabilised with 90% methanol. Goat anti rabbit IgG (Alexa Fluor® 488, [ab150081](#)) at 1/2000 dilution was used as a secondary antibody. Isotype control - Rabbit monoclonal IgG ([ab172730](#)) (Black). Unlabeled control - Unlabeled cells (blue).

This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

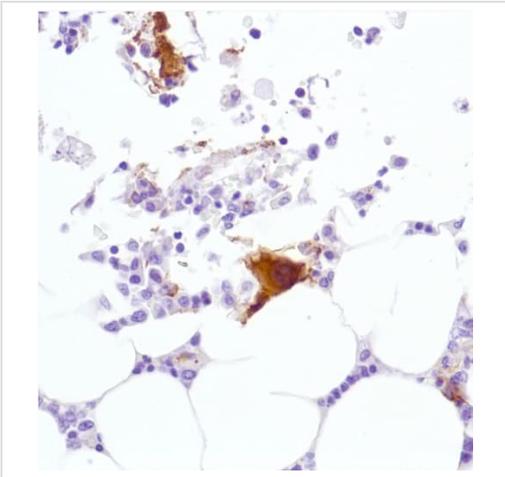

Flow Cytometry - Anti-CD42b antibody [SP219] -
Low endotoxin, Azide free (ab246709)

Flow cytometry analysis of HEL (human bone marrow erythroleukemia) labeling CD42b with purified [ab183345](#) at 1/20 dilution (9.7 µg/ml) (red). Cells were fixed with 4% paraformaldehyde and permeabilized with 90% methanol. Goat anti rabbit IgG (Alexa Fluor® 488, [ab150077](#)) at 1/2000 dilution was used as a secondary antibody. Isotype control - Rabbit monoclonal IgG ([ab172730](#)) (Black). Unlabeled control - Unlabeled cells (blue). This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

Flow Cytometry - Anti-CD42b antibody [SP219] -
Low endotoxin, Azide free (ab246709)

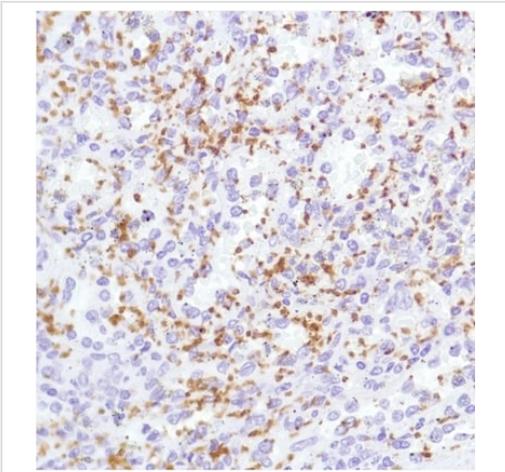

Flow cytometric analysis of rabbit anti-CD42b (SP219) antibody using [ab183345](#) (diluted 1/400) in Jurkat cells (green) compared to negative control of rabbit IgG (blue). This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) - Anti-CD42b antibody [SP219]
- Low endotoxin, Azide free (ab246709)

Immunohistochemical analysis of paraffin embedded human bone marrow tissue labeling CD42b with [ab183345](#) at 1/100 dilution.

This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) - Anti-CD42b antibody [SP219]
- Low endotoxin, Azide free (ab246709)

Immunohistochemical analysis of paraffin embedded human spleen tissue labeling CD42b with [ab183345](#) at 1/100 dilution.

This data was developed using the same antibody clone in a different buffer formulation containing PBS, BSA and sodium azide ([ab183345](#)).

Why choose a recombinant antibody?

Research with confidence
Consistent and reproducible results

Long-term and scalable supply
Recombinant technology

Success from the first experiment
Confirmed specificity

Ethical standards compliant
Animal-free production

Anti-CD42b antibody [SP219] - Low endotoxin,
Azide free (ab246709)

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
