

Product datasheet

Anti-Cuff antibody ab136834

Overview

Product name	Anti-Cuff antibody
Description	Goat polyclonal to Cuff
	<p>ⓘ This product is a fast track antibody. It has been affinity purified and shows high titre values against the immunizing peptide by ELISA. Read the terms of use »</p>
Host species	Goat
Species reactivity	<p>Predicted to work with: Drosophila melanogaster ▲</p>
Immunogen	<p>Synthetic peptide: C-RRDENAHVHNIKT with a Cysteine residue linker, corresponding to internal sequence amino acids 275-288 of Fruit fly (Drosophila melanogaster) Cuff (NP_610709.1).</p> <p style="text-align: right;"> Run BLAST with Run BLAST with </p>

Properties

Form	Liquid
Storage instructions	Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.
Storage buffer	<p>pH: 7.30 Preservative: 0.02% Sodium azide Constituents: 99% Tris buffered saline, 0.5% BSA</p>
Purity	Immunogen affinity purified
Purification notes	ab136834 was purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.
Clonality	Polyclonal
Isotype	IgG

Applications

Fast track antibodies constitute a diverse group of products that have been released to accelerate your research, but are not yet fully characterized. They have all been affinity purified and show high titre values against the immunizing peptide (by ELISA).

Application	Abreviews	Notes	Fast track terms of use
-------------	-----------	-------	---

ELISA Use at an assay dependent concentration. Peptide ELISA

Target

Function Involved in the rasiRNA pathway and most likely acts downstream of siRNA biogenesis.

Cellular localization Cytoplasm. Localised to perinuclear puncta in the nurse cells of younger egg chambers.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
