### Overview

**Product name**
Anti-Estrogen Receptor alpha antibody

**Description**
Rabbit polyclonal to Estrogen Receptor alpha

**Host species**
Rabbit

**Tested applications**
Suitable for: ICC/IF, WB, Flow Cyt, ICC, IHC-P

**Species reactivity**
Reacts with: Mouse, Rat, Human, Pig, Deer

**Predicted to work with**: Hamster, Cow, Cat 🔄

**Immunogen**
Synthetic peptide corresponding to Human Estrogen Receptor alpha aa 21-32.

**Sequence**:
NELEPLNRPQLK

**Database link**:
P03372 (Peptide available as ab5847)

**Positive control**
ICC: Human coronary artery smooth muscle cells (See Han et al). IHC-P: Rat prostate tissue. ICC/IF: T-47D cells. This antibody gave a positive result in IHC in the following FFPE tissue: Human breast ductal carcinoma

### Properties

**Form**
Liquid

**Storage instructions**
Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.

**Storage buffer**
Preservative: 0.05% Sodium azide
Constituents: 0.1% BSA, 99% PBS

**Purity**
Immunogen affinity purified

**Clonality**
Polyclonal

**Isotype**
IgG

### Applications

Our Abpromise guarantee covers the use of ab357 in the following tested applications.
Function
Nuclear hormone receptor. The steroid hormones and their receptors are involved in the regulation of eukaryotic gene expression and affect cellular proliferation and differentiation in target tissues. Can activate the transcriptional activity of TFF1.

Sequence similarities
Belongs to the nuclear hormone receptor family. NR3 subfamily. Contains 1 nuclear receptor DNA-binding domain.

Domain
Composed of three domains: a modulating N-terminal domain, a DNA-binding domain and a C-terminal ligand-binding domain.

Post-translational modifications

Cellular localization

Target

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.
IHC image of Estrogen Receptor alpha staining in human breast ductal carcinoma formalin fixed paraffin embedded tissue section, performed on a Leica Bond™ system using the standard protocol F. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6, epitope retrieval solution 1) for 20 minutes. The section was then incubated with ab3575, 5 µg/ml, for 15 minutes at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

For other IHC staining systems (automated and non-automated) customers should optimize variable parameters such as antigen retrieval conditions, primary antibody concentration and antibody incubation times.

ab3575 at a dilution of 5 µg/ml staining ER alpha in rat prostate tissue sections.
Western blot - Anti-Estrogen Receptor alpha antibody (ab3575)

All lanes: Anti-Estrogen Receptor alpha antibody (ab3575) at 1/1000 dilution

Lane 1: Recombinant full-length human Estrogen Receptor alpha protein, 250 ng
Lane 2: Recombinant full-length human Estrogen Receptor alpha protein, 125 ng
Lane 3: Recombinant full-length human Estrogen Receptor alpha protein, 62.5 ng
Lane 4: Recombinant full-length human Estrogen Receptor alpha protein, 31.25 ng

Secondary
All lanes: HRP-conjugated goat anti-rabbit IgG at 1/40000 dilution

Developed using the ECL technique.

Predicted band size: 68 kDa

Blocked with 5% milk in TBST for at least 1 hour at room temperature.

4% paraformaldehyde fixed 0.1% Triton permeabilized T-47D (human ductal breast epithelial tumor cell line) and negative control line Hs 578T cells stained for Estrogen Receptor alpha (green) using ab3575 (1/2000) in ICC/IF. DyLight 488-conjugated goat anti-rabbit IgG at 1/500.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
We investigate all quality concerns to ensure our products perform to the highest standards.

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors.
