

Product datasheet

Goat Anti-Monkey IgG H&L (FITC) ab112766

1 References

Overview

Product name	Goat Anti-Monkey IgG H&L (FITC)
Description	Goat polyclonal Secondary Antibody to Monkey IgG - H&L (FITC)
Host species	Goat
Target species	Monkey
Specificity	By immunoelectrophoresis and ELISA ab112766 reacts specifically with monkey IgG and with light chains common to other monkey immunoglobulins. No antibody was detected against non-immunoglobulin serum proteins. ab112766 may cross react with IgG from other species.
Immunogen	Other Immunogen Type corresponding to IgG.
Conjugation	FITC. Ex: 493nm, Em: 528nm

Properties

Form	Liquid
Storage instructions	Shipped at 4°C. Store at +4°C.
Storage buffer	pH: 6.8 Preservative: 0.09% Sodium azide Constituents: 0.2% BSA, 99% PBS
Purity	Immunogen affinity purified
Purification notes	ab112766 was isolated by affinity chromatography using antigen coupled to agarose beads and conjugated to fluorescein isothiocyanate (FITC).
Conjugation notes	F/P ratio is 4.2.
Clonality	Polyclonal
Isotype	IgG

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet

- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
