Human Thymosin alpha 1 peptide ab42247

Overview

Product name: Human Thymosin alpha 1 peptide

Description

Nature: Synthetic

Species: Human

Sequence: SDAAVDTTSEITKDLKEKKEVVEEAEN

Amino acids: 2 to 29

Specifications

Our Abpromise guarantee covers the use of ab42247 in the following tested applications. The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Applications: Blocking - Blocking peptide for Anti-Thymosin alpha 1 antibody (ab14332)

Form: Lyophilised

Preparation and Storage

Stability and Storage: Shipped at 4°C. After reconstitution store at -20°C. Avoid freeze / thaw cycles.

Constituent: 0.1% Acetic acid

Reconstitution: Store at 2-8°C lyophilised, resuspend in 0.1% acetic acid.

General Info

Function: Prothymosin alpha may mediate immune function by conferring resistance to certain opportunistic infections.

Sequence similarities: Belongs to the pro/parathymosin family.

Post-translational modifications: Covalently linked to a small RNA of about 20 nucleotides.

Cellular localization: Nucleus.
Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
