Product datasheet

Anti-Lactoferrin antibody ab15811

Overview

Product name: Anti-Lactoferrin antibody
Description: Rabbit polyclonal to Lactoferrin
Host species: Rabbit
Tested applications: Suitable for: IHC-P, ELISA, WB, IP, ICC
Species reactivity: Reacts with: Human
Immunogen: Full length native protein (purified) (Human).

General notes:
Lactoferrin is an iron binding glycoprotein with an approximate molecular weight of 80 kDa. The protein has two iron binding domains each housing one Fe$^{3+}$ and the synergistic CO$_3^{2-}$ ion. The crystal structure form of human lactoferrin at 2.2A resolution exhibits 5330 protein atoms, 2Fe$^{2+}$, 2CO$_3^{2-}$ and 98 carbohydrate atoms. Lactoferrin is absorbed from intestine by apical side of the membrane and localized to the nuclei. Intravenous infusion of lactoferrin is protective against lethal doses of E coli and induce bacteremia by a mechanism that downregulates neutrophil TNF alfa secretion. Recombinant human lactoferrin (rhLF), expressed and extracted from rice seed, is being evaluated for use as a dietary supplement to treat iron deficiency and/or iron deficiency induced anemia. Lactoferrin has been shown to have a role in the immune system and in early development of the embryo. A specific receptor for lactoferrin binding has been implicated in the human fetal intestine. Early embryonic localisation of lactoferrin by IHC has suggested its presence in various tissues including intestinal epithelium, kinney, and various regions of the brain.

Properties

Form: Liquid
Storage instructions: Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.
Storage buffer: Antibody stabilization buffer.
Purity: Immunogen affinity purified
Purification notes: Affinity purified using immobilized antigenic proteins and pre adsorbed on an immobilized heterologus lactoferrin matrix to remove the cross reacting antibodies.

Target

Function: Transferrins are iron binding transport proteins which can bind two Fe(3+) ions in association with the binding of an anion, usually bicarbonate. Lactotransferrin has antimicrobial activity which depends on the extracellular cation concentration. Lactoferroxins A, B and C have opioid antagonist activity. Lactoferroxin A shows preference for mu-receptors, while lactoferroxin B and C have somewhat higher degrees of preference for kappa-receptors than for mu-receptors. The lactotransferrin transferrin-like domain 1 functions as a serine protease of the peptidase S60 family that cuts arginine rich regions. This function contributes to the antimicrobial activity.

Sequence similarities: Belongs to the transferrin family.
Cellular localization: Secreted.
Anti-Lactoferrin antibody (ab15811) at 1/500 dilution + Human Lactoferrin

**Predicted band size:** 79 kDa  
**Observed band size:** 99 kDa

Why is the actual band size different from the predicted?

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) - Anti-Lactoferrin antibody (ab15811)

ab15811 at a 1/150 dilution staining Lactoferrin in human tonsil and intestinal tissue sections by Immunohistochemistry (paraffin embedded) incubated for 20 minutes at 25°C. Fixed with formaldehyde, enzymatic antigen retrieval step performed using proteinase K for 5 minutes at 37°C. Secondary used undiluted polyclonal Goat anti-mouse/rabbit IgG.

Please note: All products are “FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES”

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit [https://www.abcam.com/abpromise](https://www.abcam.com/abpromise) or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
