**Product Overview**

**Product name**  
LDH Assay Kit / Lactate Dehydrogenase Assay Kit (Colorimetric) ab102526

**Detection method**  
Colorimetric

**Sample type**  
Cell culture supernatant, Urine, Serum, Plasma, Other biological fluids, Tissue Extracts

**Assay type**  
Enzyme activity (quantitative)

**Sensitivity**  
> 1 mU/ml

**Range**  
1 mU/ml - 100 mU/ml

**Assay time**  
0h 30m

**Product overview**  
Lactate Dehydrogenase (LDH) Assay Kit (Colorimetric) ab102526 quantifies LDH activity in a variety of samples such as serum or plasma, tissue, cells, and culture medium.

In the LDH assay protocol, LDH reduces NAD to NADH, which then interacts with a specific probe to produce a color (OD max = 450 nm). The kit can detect 1 - 100 mU/mL of LDH directly in samples. The assay is quick, convenient, and sensitive.

**LDH assay protocol summary:**  
- add samples and standards to wells  
- add reaction mix  
- analyze every 2-3 min for at least 30 min with microplate reader in kinetic mode at 37°C

**Notes**  
To measure LDH release into cell culture medium from cultured cells in a cytotoxicity experiment, we recommend LDH assay kit ab65393, which is designed specifically as a cytotoxicity assay.

This LDH assay kit ab102526 is designed in a more flexible format for use with a variety of sample types (this includes cell culture medium, and this kit may be used in cytotoxicity assays). This flexible format LDH assay kit is also available as a fluorometric LDH assay kit ab197000.

**How other researchers have used LDH Assay Kit ab102526**

This LDH assay kit has been used in publications in a variety of sample types, including:
- Human: serum
- Mouse: kidney tissue, kidney epithelial cell line lysates, muscle tissue, serum, vaginal lavage fluid, liver tissue
- Rat: H8C2 cell lysates

4 Images
It has also been used in LDH release cytotoxicity cell culture assays including in human hippocampal neuronal cultures, THP-1 cells, primary chondrocyte cells on a membrane scaffold, primary lymphocytes, ovarian cancer cells co-cultured with mouse splenocytes in a cytotoxic T lymphocyte assay.

Platform
Microplate reader

Properties

Storage instructions
Store at -20°C. Please refer to protocols.

Pathway
Fermentation; pyruvate fermentation to lactate; (S)-lactate from pyruvate: step 1/1.

Involvement in disease
Defects in LDHA are the cause of glycogen storage disease type 11 (GSD11) [MIM:612933]. A metabolic disorder that results in exertional myoglobinuria, pain, cramps and easy fatigue.

Sequence similarities
Belongs to the LDH/MDH superfamily. LDH family.

Post-translational modifications
ISGylated.

Cellular localization
Cytoplasm.

Images

Tam BT et al. used the LDH assay kit on mouse skeletal muscle tissue lysates comparing pressure-induced compressed and control samples across a range of knockout mice lines.
Kinetic profiles of approx 0.5 mU of a sample of pure LDH (Positive Control) and 2 μL frozen human serum using buffer as a background control.

NADH Standard Curve.

Cellular necrosis was measured as LDH release after cisplatin treatment for 24 h and 48 h using ab102526. The release of LDH was apparently increased at 24 and 48 h after cisplatin treatment.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
Valid for 12 months from date of delivery
Response to your inquiry within 24 hours

We provide support in Chinese, English, French, German, Japanese and Spanish
Extensive multi-media technical resources to help you
We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
