**The Abpromise guarantee** Our [Abpromise guarantee](#) covers the use of ab271916 in the following tested applications. The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
<b>IP</b>		Use at an assay dependent concentration.
<b>IHC-P</b>		Use at an assay dependent concentration. Perform heat mediated antigen retrieval with citrate buffer pH 6 before commencing with IHC staining protocol.
<b>WB</b>		Use at an assay dependent concentration. Predicted molecular weight: 31 kDa.

## Target

---

**Relevance** Mast cells contain a number of preformed chemical mediators such as histamine, chymase, carboxypeptidase and proteolytic trypase. Human Mast Cell Trypsase is considered to be an important marker of mast cell activation as well as an important mediator of inflammation.

**Cellular localization** Secreted. Note: released from the secretory granules upon mast cell activation.
