## Applications

Our [Abpromise guarantee](#) covers the use of **ab226908** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
WB		1/500 - 1/3000. Predicted molecular weight: 62 kDa.

## Target

**Relevance** Membrane frizzled-related protein, MFRP, may have a role in eye development and may be necessary for photoreceptor maintenance. Mutations of membrane-type frizzled-related protein are associated with inherited retinal degenerations including syndromic forms of microphthalmos/retinal degeneration, a rare autosomal recessive disorder of eye development characterized by extreme hyperopia and small functional eyes, posterior microphthalmia with retinitis pigmentosa, foveoschisis, and optic disk drusen.

**Cellular localization** Cell Membrane; single-pass type II membrane protein
