

Product datasheet

Mouse Myoglobin Antibody Pair - BSA and Azide free
ab241773

Recombinant RabMAb

1 Image

Overview

| | |
|----------------------------|--|
| Product name | Mouse Myoglobin Antibody Pair - BSA and Azide free |
| Assay type | ELISA set |
| Range | 125 pg/ml - 8000 pg/ml |
| Species reactivity | Reacts with: Mouse |
| Product overview | <p>The Antibody Pair can be used to quantify Mouse Myoglobin. BSA and Azide free antibody pairs include unconjugated capture and detector antibodies suitable for sandwich ELISAs. The antibodies are provided at an approximate concentration of 1 mg/ml as measured by the protein A280 method. The recommended antibody orientation is based on internal optimization for ELISA-based assays. Antibody orientation is assay dependent and needs to be optimized for each assay type. Both capture and detector antibodies are rabbit monoclonal antibodies delivering consistent, specific, and sensitive results.</p> <p>For additional information on the performance of the antibody pair, see the equivalent SimpleStep ELISA® Kit (ab210965), which uses the same antibodies. However, due to differences in their formulation, this antibody pair cannot be used with the consumables provided with our SimpleStep ELISA Kits. Please note that the range provided for the pairs is only an estimation based on the performance of the related product using the same antibody pair. Performance of the antibody pair will depend on the specific characteristics of your assay. We guarantee the product works in sandwich ELISA, but we do not guarantee the sensitivity or dynamic range of the antibody pair in your assay.</p> <p>Download SDS here.</p> |
| Tested applications | Suitable for: Sandwich ELISA |
| Platform | Reagents |

Properties

| | |
|-----------------------------|---|
| Storage instructions | Store at +4°C. Please refer to protocols. |
| Carrier free | Yes |

| | |
|--|---|
| Components | 10 x 96 tests |
| Mouse Myoglobin Capture Antibody (unconjugated) | 1 x 100µg |
| Mouse Myoglobin Detector Antibody (unconjugated) | 1 x 100µg |
| Function | Serves as a reserve supply of oxygen and facilitates the movement of oxygen within muscles. |
| Sequence similarities | Belongs to the globin family. |

Applications

Our [Abpromise guarantee](#) covers the use of **ab241773** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

| Application | Abreviews | Notes |
|----------------|-----------|--|
| Sandwich ELISA | | Use at an assay dependent concentration. |

Powered by recombinant antibodies

Research with confidence
Consistent and reproducible results

Long-term and scalable supply
Recombinant technology

Success from the first experiment
Confirmed specificity

Ethical standards compliant
Animal-free production

Sandwich ELISA - Mouse Myoglobin Antibody Pair - BSA and Azide free (ab241773)

To learn more about the advantages of recombinant antibodies see [here](#).

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish

- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
