Product datasheet

Normal Rat Serum ab7488

1 References

Overview

Product name  Normal Rat Serum
Host species  Rat
Tested applications  Suitable for: Blocking, IHC-P, IHC-Fr
General notes  Rat serum for blocking in antibody-based applications or use as an antibody diluent. From mixed sex Sprague Dawley rats. Origin: North America.

Total Protein Concentration: normal.
Purity: Whole antiserum

Properties

Form  Liquid
Storage instructions  Shipped on Dry Ice. Upon delivery aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.
Purity  Whole antiserum

Applications

Our Abpromise guarantee covers the use of ab7488 in the following tested applications.
The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit [https://www.abcam.com/abpromise](https://www.abcam.com/abpromise) or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
