

Product datasheet

Esomeprazole sodium, H⁺/ K⁺-ATPase (proton pump) inhibitor ab120500

[2 Images](#)

Overview

Product name	Esomeprazole sodium, H ⁺ / K ⁺ -ATPase (proton pump) inhibitor
Description	H ⁺ / K ⁺ -ATPase (proton pump) inhibitor
Biological description	H ⁺ / K ⁺ -ATPase (proton pump) inhibitor (IC ₅₀ = 2.3 μM). <i>S</i> -enantiomer of omeprazole. Attenuates intestinal mucosal barrier damage and can promote healing of gastric lesions in rats. Also inhibits Cytochrome P450 2C19 (CYP2C9), CYP2C19 and CYP3A4 (K _i values are 81.5, 8.6 and 46.6 μM, respectively).

CAS Number 161796-78-7

Chemical structure

Properties

Chemical name	6-Methoxy-2-[(<i>S</i>)-[(4-methoxy-3,5-dimethyl-2-pyridinyl)methyl]sulfinyl]-1 <i>H</i> -benzimidazole sodium salt
Molecular weight	367.40
Molecular formula	C ₁₇ H ₁₈ N ₃ NaO ₃ S
PubChem identifier	23674541
Storage instructions	Store at -20°C. Store under desiccating conditions. The product can be stored for up to 12 months.
Solubility overview	Soluble in water to 100 mM, in ethanol to 100 mM and in DMSO to 100 mM
Handling	Wherever possible, you should prepare and use solutions on the same day. However, if you need to make up stock solutions in advance, we recommend that you store the solution as aliquots in tightly sealed vials at -20°C. Generally, these will be useable for up to one month. Before use, and prior to opening the vial we recommend that you allow your product to equilibrate to room temperature for at least 1 hour. Toxic, refer to SDS for further information.

Applications

The Abpromise guarantee

Our [Abpromise guarantee](#) covers the use of ab120500 in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
Functional Studies		Use at an assay dependent concentration.

Images

2D chemical structure image of ab120500, Esomeprazole sodium, H⁺/K⁺-ATPase (proton pump) inhibitor

Chemical Structure - Esomeprazole sodium, H⁺/K⁺-ATPase (proton pump) inhibitor (ab120500)

Functional Studies - Esomeprazole sodium, H⁺/K⁺-ATPase (proton pump) inhibitor (ab120500)

MDA-MB-231 cells were incubated at 37°C for 6h with vehicle control (0 μM) and 100 μM of esomeprazole sodium (ab120500). Increased expression of aryl hydrocarbon receptor ([ab2770](#)) correlates with an increase in esomeprazole sodium concentration, as described in literature.

Whole cell lysates were prepared with RIPA buffer (containing protease inhibitors and sodium orthovanadate), 20 μg of each were loaded on the gel and the WB was run under reducing conditions. After transfer the membrane was blocked for an hour using 3% milk before being incubated with [ab2770](#) at 2 μg/ml and [ab8226](#) at 1 μg/ml overnight at 4°C. Antibody binding was detected using an anti-mouse antibody conjugated to HRP ([ab97040](#)) at 1/10000

dilution and visualised using ECL development solution.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES, NOT FOR USE IN HUMANS"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
- Abcam biochemicals are novel compounds and we have not tested their biological activity in house. Please use the literature to identify how to use these products effectively. If you require further assistance please contact the scientific support team
