Human/Mouse MEK3 Antibody Pair - BSA and Azide free ab241703

Recombinant RabMAb

2 Images

Overview

Product name Human/Mouse MEK3 Antibody Pair - BSA and Azide free

Assay type ELISA set

250 pg/ml - 8000 pg/ml Range

Reacts with: Mouse, Human Species reactivity

Product overview The Antibody Pair can be used to quantify MEK3. BSA and Azide free antibody pairs include

> unconjugated capture and detector antibodies suitable for sandwich ELISAs. The antibodies are provided at an approximate concentration of 1 mg/ml as measured by the protein A280 method. The recommended antibody orientation is based on internal optimization for ELISA-based assays. Antibody orientation is assay dependent and needs to be optimized for each assay type. Both capture and detector antibodies are rabbit monoclonal antibodies delivering consistent,

specific, and sensitive results.

Tested applications Suitable for: Sandwich ELISA

Platform Reagents

Properties

Storage instructions Store at +4°C. Please refer to protocols.

Carrier free Yes

Components	10 x 96 tests
Human/Mouse MEK3 Capture Antibody (unconjugated)	1 x 100μg
Human/Mouse MEK3 Detector Antibody (unconjugated)	1 x 100μg

Function Dual specificity kinase. Is activated by cytokines and environmental stress in vivo. Catalyzes the

concomitant phosphorylation of a threonine and a tyrosine residue in the MAP kinase p38.

Tissue specificity Abundant expression is seen in the skeletal muscle. It is also widely expressed in other tissues.

Involvement in disease Note=Defects in MAP2K3 may be involved in colon cancer.

,

Applications

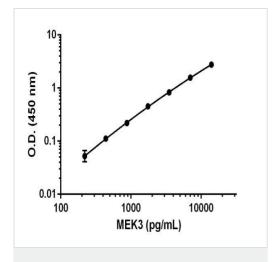

The Abpromise guarantee Our Abpromise guarantee covers the use of ab241703 in the following tested applications.

blocking the MAPK signaling pathway.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
Sandwich ELISA		Use at an assay dependent concentration.

Sandwich ELISA - Human/Mouse MEK3 Antibody

Pair - BSA and Azide free (ab241703)

Representative standard curve from corresponding SimpleStep ELISA® Kit (ab217775), which uses the same antibody pair. For additional information on the performance of pair and kit, refer to the corresponding kit datasheet. Due to differences in the formulation and format of the antibodies in this pair, they cannot be used as substitutes for the antibody components in our SimpleStep ELISA® Kits.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

· Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
