

Product datasheet

Mouse NGF R Antibody Pair - BSA and Azide free ab241778

Recombinant RabMAb

[3 Images](#)

Overview

| | |
|----------------------------|--|
| Product name | Mouse NGF R Antibody Pair - BSA and Azide free |
| Assay type | ELISA set |
| Range | 15.62 pg/ml - 1000 pg/ml |
| Species reactivity | Reacts with: Mouse |
| Product overview | <p>The Antibody Pair can be used to quantify Mouse NGF R. BSA and Azide free antibody pairs include unconjugated capture and detector antibodies suitable for sandwich ELISAs. The antibodies are provided at an approximate concentration of 1 mg/ml as measured by the protein A280 method. The recommended antibody orientation is based on internal optimization for ELISA-based assays. Antibody orientation is assay dependent and needs to be optimized for each assay type. Both capture and detector antibodies are rabbit monoclonal antibodies delivering consistent, specific, and sensitive results.</p> <p>For additional information on the performance of the antibody pair, see the equivalent SimpleStep ELISA® Kit (ab205569), which uses the same antibodies. However, due to differences in their formulation, this antibody pair cannot be used with the consumables provided with our SimpleStep ELISA Kits. Please note that the range provided for the pairs is only an estimation based on the performance of the related product using the same antibody pair. Performance of the antibody pair will depend on the specific characteristics of your assay. We guarantee the product works in sandwich ELISA, but we do not guarantee the sensitivity or dynamic range of the antibody pair in your assay.</p> |
| Tested applications | Suitable for: Sandwich ELISA |
| Platform | Reagents |

Properties

| | |
|-----------------------------|---|
| Storage instructions | Store at +4°C. Please refer to protocols. |
| Carrier free | Yes |

| Components | 10 x 96 tests |
|--|---------------|
| Mouse NGF R Capture Antibody (unconjugated) | 1 x 100µg |
| Mouse NGF R Detector Antibody (unconjugated) | 1 x 100µg |

| | |
|---|---|
| Function | Low affinity receptor which can bind to NGF, BDNF, NT-3, and NT-4. Can mediate cell survival as well as cell death of neural cells. |
| Sequence similarities | Contains 1 death domain. Contains 4 TNFR-Cys repeats. |
| Domain | Death domain is responsible for interaction with RANBP9. The extracellular domain is responsible for interaction with NTRK1. |
| Post-translational modifications | N- and O-glycosylated. O-linked glycans consist of Gal(1-3)GalNAc core elongated by 1 or 2 NeuNAc. Phosphorylated on serine residues. |
| Cellular localization | Membrane. |

Applications

The Abpromise guarantee Our **Abpromise guarantee** covers the use of ab241778 in the following tested applications. The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

| Application | Abreviews | Notes |
|----------------|-----------|--|
| Sandwich ELISA | | Use at an assay dependent concentration. |

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
