

# Anti- Metapneumovirus Phosphoprotein antibody [hMPV 123] ab94803

### 3 References

#### Overview

<b>Product name</b>	Anti- Metapneumovirus Phosphoprotein antibody [hMPV 123]
<b>Description</b>	Mouse monoclonal [hMPV 123] to Metapneumovirus Phosphoprotein
<b>Host species</b>	Mouse
<b>Specificity</b>	Identification and location of expression of the phosphoprotein of human metapneumovirus (hMPV) of both types A and B.
<b>Tested applications</b>	<b>Suitable for:</b> IHC-Fr, ELISA, WB, ICC/IF
<b>Species reactivity</b>	<b>Reacts with:</b> Metapneumovirus
<b>Immunogen</b>	Tissue, cells or virus corresponding to Metapneumovirus Phosphoprotein. Human Metapneumovirus strain NCL-145
<b>General notes</b>	<p>Fusion partner: PS-NS/1-Ag4</p> <p>The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.</p> <p>If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&amp;As</p>

#### Properties

<b>Form</b>	Liquid
<b>Storage instructions</b>	Shipped at 4°C. Upon delivery aliquot and store at -20°C or -80°C. Avoid repeated freeze / thaw cycles.
<b>Storage buffer</b>	Preservative: 0.02% Sodium azide Constituent: 99.98% PBS
<b>Purity</b>	Protein A purified
<b>Clonality</b>	Monoclonal
<b>Clone number</b>	hMPV 123
<b>Isotype</b>	IgG2a

## Applications

---

**The Abpromise guarantee** Our **Abpromise guarantee** covers the use of ab94803 in the following tested applications. The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
IHC-Fr		Use at an assay dependent concentration.
ELISA		Use at an assay dependent concentration.
WB		Use at an assay dependent concentration. Predicted molecular weight: 33 kDa.
ICC/IF		Use at an assay dependent concentration.

## Target

---

**Relevance** Human metapneumovirus (hMPV) is a member of the Paramyxoviridae family belonging to the Metapneumovirus genus.

**Please note:** All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

## Our Abpromise to you: Quality guaranteed and expert technical support

---

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

## Terms and conditions

---

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
