# HRP Anti-Phosphoserine antibody ab9334

# 12 References 1 Image

Overview

Product name HRP Anti-Phosphoserine antibody

**Description** HRP Rabbit polyclonal to Phosphoserine

Host species Rabbit

Conjugation HRP

**Specificity** Specifically recognizes both free-phosphoserine, serine-phosphorylated peptide and proteins.

Does not cross-react with ATP, phosphotyrosine, peptidyl phosphothreonine and serine. Has slight cross-reactivity with free phosphothreonine. Readily reacts to known phosphoproteins such

as phosvitin and alpha casein.

Tested applications Suitable for: WB, ELISA

Species reactivity Reacts with: Species independent

Immunogen Chemical/ Small Molecule corresponding to Phosphoserine conjugated to keyhole limpet

haemocyanin. BSA and KLH-phosphoserine conjugates.

Positive control Use Mouse brain extract for Western Blotting or synthetic phosphopeptide or phosvitin for ELISA.

**General notes** 

The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets

your needs before purchasing.

If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be

found below, along with publications, customer reviews and Q&As

**Properties** 

Form Liquid

**Storage instructions** Shipped at 4°C. Store at +4°C.

**Storage buffer** pH: 6.00

Constituent: Tris buffered saline

**Purity** Immunogen affinity purified

**Purification notes** Immunoaffinity chromatography with phosphoserine-agarose.

**Clonality** Polyclonal

1

## **Applications**

#### The Abpromise guarantee

Our <u>Abpromise guarantee</u> covers the use of ab9334 in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
WB		Use a concentration of 2 $\mu$ g/ml. To block use 3%BSA with 0.1% gelatin (do not use milk). We recommend that the antibody solution should contain 0.5% BSA to prevent non-specific binding.
ELISA		Use a concentration of 1 µg/ml.

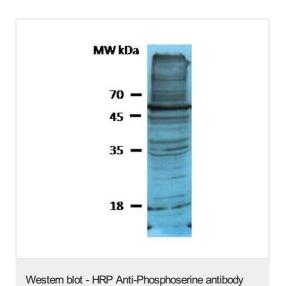

#### **Target**

#### Relevance

Changes in the serine/threonine phosphorylation state of a protein in response to various external stimuli can have profound effects on cellular signal transduction, apoptosis and carcinogenesis. The reagents, including phosphorylated protein/peptides, antibodies against the phosphospecific amino acid, are important tools to explore the activation of serine, threonine or tyrosine containing proteins. An aberrant protein phosphorylation is a hallmark of human disease, and the enzymes, particularly protein kinases, which control protein phosphorylation are recognized as a major new drug target family.

#### **Images**

(ab9334)

Western blotting of mouse brain extract with ab9334 at a 1/200 dilution on a 12% SDS gel. 50  $\mu$ g protein loaded in each lane. Antibody incubated for 2 hours incubation at room temperature.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

#### Our Abpromise to you: Quality guaranteed and expert technical support

- · Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- · Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <a href="https://www.abcam.com/abpromise">https://www.abcam.com/abpromise</a> or contact our technical team.

## Terms and conditions

· Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
