Anti-IL-2 antibody [EPR16615-341] ab243650

Recombinant RabMAb

1 Abreviews 1 References 4 Images

Overview

Product name	Anti-IL-2 antibody [EPR16615-341]
Description	Rabbit monoclonal [EPR16615-341] to IL-2
Host species	Rabbit
Tested applications	**Suitable for:** Flow Cyt (Intra), ICC/IF **Unsuitable for:** IHC-P,IP or WB
Species reactivity	**Reacts with:** Mouse
Immunogen	Recombinant fragment. This information is proprietary to Abcam and/or its suppliers.
Positive control	ICC/IF: EL4.IL-2 cells. Flow Cyt (intra):EL4.IL-2 (mouse lymphoma T lymphocyte) treated with 80nM PMA + 1.34uM Ionomycin + 10.6uM Brefeldin A + 2uM Monensin for 6 h, Mouse splenocytes treated with 80nM PMA+1.34uM Ionomycin+10.6uM Brefeldin A+2uM Monensin.
General notes	This product is a recombinant monoclonal antibody, which offers several advantages including: - High batch-to-batch consistency and reproducibility - Improved sensitivity and specificity - Long-term security of supply - Animal-free production For more information **see here**. Our RabMAb® technology is a patented hybridoma-based technology for making rabbit monoclonal antibodies. For details on our patents, please refer to **RabMAb® patents**.

Properties

Form	Liquid
Storage instructions	Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C long term. Avoid freeze / thaw cycle.
Storage buffer	Preservative: 0.01% Sodium azide Constituents: 59.94% PBS, 40% Glycerol (glycerin, glycerine), 0.05% BSA
Purity	Protein A purified
Clonality	Monoclonal
Clone number	EPR16615-341

Isotype	IgG

Applications

The Abpromise guarantee Our **Abpromise guarantee** covers the use of ab243650 in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
Flow Cyt (Intra)		1/50.
ICC/IF	★★☆☆☆ **(1)**	1/50.

Application notes Is unsuitable for IHC-P,IP or WB.

Target

Function Produced by T-cells in response to antigenic or mitogenic stimulation, this protein is required for T-cell proliferation and other activities crucial to regulation of the immune response. Can stimulate B-cells, monocytes, lymphokine-activated killer cells, natural killer cells, and glioma cells.

Involvement in disease Note=A chromosomal aberration involving IL2 is found in a form of T-cell acute lymphoblastic leukemia (T-ALL). Translocation t(4;16)(q26;p13) with involves TNFRSF17.

Sequence similarities Belongs to the IL-2 family.

Cellular localization Secreted.

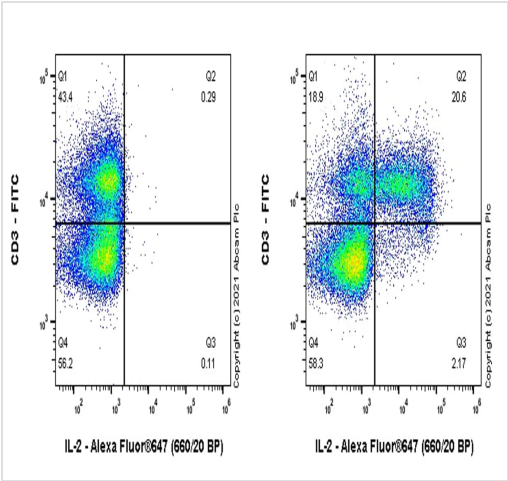
Immunocytochemistry/ Immunofluorescence - Anti-IL-2 antibody [EPR16615-341] (ab243650)

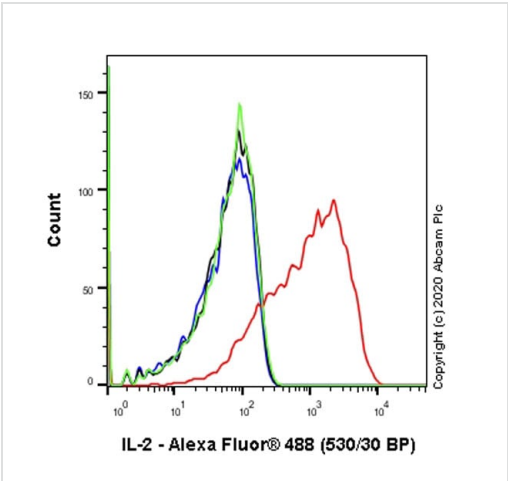
Immunofluorescent analysis of 4% Paraformaldehyde-fixed, 0.1% TritonX-100 permeabilized EL4.IL-2 cells labelling IL-2 with ab243650 at 1/50 (9.1 ug/ml) dilution, followed by **ab150077** Goat Anti-Rabbit IgG H&L (Alexa Fluor® 488) antibody at 1/1000 dilution (Green) Confocal image showing cytoplasmic staining in EL4.IL-2 cell line treated with Cell Stimulation Cocktail (80nM PMA + 1.34uM Ionomycin + 10.6uM Brefeldin A + 2uM Monensin) for 6 h. **ab195889** Anti-alpha Tubulin mouse monoclonal antibody - Microtubule Marker (Alexa Fluor® 594) was used to counterstain tubulin at 1/200 dilution (Red). The Nuclear counterstain was DAPI (Blue).

Secondary antibody only control: Secondary antibody is **ab150077** Goat Anti-Rabbit IgG H&L (Alexa Fluor® 488) at 1/1000 dilution.



Flow Cytometry (Intracellular) - Anti-IL-2 antibody [EPR16615-341] (ab243650)

Intracellular flow cytometric analysis of 2% paraformaldehyde fixed 0.1% Tween-20 permeabilized Mouse splenocytes treated with cell stimulation cocktail (80nM PMA+1.34uM Ionomycin+10.6uM Brefeldin A+2uM Monensin) for 6 hours (Right)/ Untreated control (Left). cells labelling IL-2 with ab243650 at 1/500 dilution (1ug)/ Left and Right (Red) compared with a isotype control. A Goat anti rabbit IgG (Alexa Fluor® 647, **ab150079**) at 1/2000 dilution was used as the secondary antibody. Cells were surface stained with anti-CD3 conjugated to FITC. Then fixed with 2% PFA for 10min followed by intracellularly stained with ab243650. Gated on lymphocytes population. Data was kindly provided by an anonymous collaborator.



Flow Cytometry (Intracellular) - Anti-IL-2 antibody [EPR16615-341] (ab243650)

Intracellular flow cytometric analysis of 4% paraformaldehyde fixed 90% methanol permeabilized EL4.IL-2 (mouse lymphoma T lymphocyte) treated with cell stimulation cocktail (80nM PMA + 1.34uM Ionomycin + 10.6uM Brefeldin A + 2uM Monensin) for 6 hours (Red)/ Untreated control (Green) cells labelling IL-2 with ab243650 at 1/50 dilution (1ug) (Red) compared with a Rabbit monoclonal IgG (**ab172730**) (Black) isotype control and an unlabelled control (cells without incubation with primary antibody and secondary antibody) (Blue). A Goat anti rabbit IgG (Alexa Fluor® 488, **ab150077**) at 1/2000 dilution was used as the secondary antibody.

Anti-IL-2 antibody [EPR16615-341] (ab243650)

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit **https://www.abcam.com/abpromise** or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
