Product datasheet

Anti-NDRG1 antibody ab37897

Overview

**Product name**
Anti-NDRG1 antibody

**Description**
Goat polyclonal to NDRG1

**Host species**
Goat

**Tested applications**
Suitable for: WB, IHC-P

**Species reactivity**
Reacts with: Human

**Predicted to work with**
Mouse, Rat, Dog

**Immunogen**
Synthetic peptide:
GNSAGPKSMEVSC
, corresponding to C terminal amino acids 382-394 of Human NDRG1

**Positive control**
Recombinant human NDRG1 protein (ab87685) can be used as a positive control in WB. Human Kidney, Cerebellum and Testis tissue lysates; IHC-P: Human Prostate, hepatocellular carcinoma and colon tissues.

**General notes**
The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.

If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&As

Properties

**Form**
Liquid

**Storage instructions**
Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

**Storage buffer**
pH: 7.30
Preservative: 0.02% Sodium azide
Constituent: 0.5% BSA

**Purity**
Immunogen affinity purified

**Purification notes**
Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide.
Clonality: Polyclonal  
Isotype: IgG

Applications

**The Abpromise guarantee**
Our Abpromise guarantee covers the use of ab37897 in the following tested applications.
The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Target

**Function**
May have a growth inhibitory role.

**Tissue specificity**
Ubiquitous; expressed most prominently in placental membranes and prostate, kidney, small intestine, and ovary tissues. Reduced expression in adenocarcinomas compared to normal tissues. In colon, prostate and placental membranes, the cells that border the lumen show the highest expression.

**Involvement in disease**
Defects in NDRG1 are the cause of Charcot-Marie-Tooth disease type 4D (CMT4D) [MIM:601455]; also known as hereditary motor and sensory neuropathy Lom type (HMSNL). CMT4D is a recessive form of Charcot-Marie-Tooth disease, the most common inherited disorder of the peripheral nervous system. Charcot-Marie-Tooth disease is classified in two main groups on the basis of electrophysiologic properties and histopathology: primary peripheral demyelinating neuropathy and primary peripheral axonal neuropathy. Demyelinating CMT neuropathies are characterized by severely reduced nerve conduction velocities (less than 38 m/sec), segmental demyelination and remyelination with onion bulb formations on nerve biopsy, slowly progressive distal muscle atrophy and weakness, absent deep tendon reflexes, and hollow feet. By convention, autosomal recessive forms of demyelinating Charcot-Marie-Tooth disease are designated CMT4.

**Sequence similarities**
Belongs to the NDRG family.

**Cellular localization**
Cytoplasm. Nucleus. Cell membrane. Whereas in prostate epithelium and placental chorion it is located in both the cytoplasm and the nucleus, nuclear staining is not observed in colon epithelium cells. Instead its localization changes from the cytoplasm to the plasma membrane during differentiation of colon carcinoma cell lines in vitro.
**Western blot - Anti-NDRG1 antibody (ab37897)**

- **All lanes**: Anti-NDRG1 antibody (ab37897) at 0.1 µg/ml

- **Lane 1**: Human Kidney tissue lysate
- **Lane 2**: Human Cerebellum tissue lysate
- **Lane 3**: Human Testis tissue lysate

Lysates/proteins at 35 µg per lane.

**Predicted band size**: 43 kDa

Primary incubation was 1 hour. Detected by chemiluminescence.

**Please note**: All products are “FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES”

**Our Abpromise to you: Quality guaranteed and expert technical support**

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit [https://www.abcam.com/abpromise](https://www.abcam.com/abpromise) or contact our technical team.

**Terms and conditions**

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
