## Anti-SEMA5A antibody abl27002

## 3 References 1 Image

## Overview

| Product name | Anti-SEMA5A antibody |
| :--- | :--- |
| Description | Rabbit polyclonal to SEMA5A |
| Host species | Rabbit |
| Tested applications | Suitable for: WB |
| Species reactivity | Reacts with: Mouse |
|  | Predicted to work with: Rat, Human |
| Immunogen | Recombinant fragment corresponding to Human SEMA5A aa 700-960. <br> Database link: Q13591 |
| Positive control | Mouse brain whole cell lysate. |
| General notes | The Life Science industry has been in the grips of a reproducibility crisis for a number of years. <br> Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies <br> and knockout edited cell lines for gold-standard validation. Please check that this product meets <br> your needs before purchasing. | | If you have any questions, special requirements or concerns, please send us an inquiry and/or |
| :--- |
| contact our Support team ahead of purchase. Recommended alternatives for this product can be |
| found below, along with publications, customer reviews and Q\&As |

Properties

| Form | Liquid |
| :--- | :--- |
| Storage instructions | Shipped at $4^{\circ} \mathrm{C}$. Upon delivery aliquot. Store at $-20^{\circ} \mathrm{C}$ or $-80^{\circ} \mathrm{C}$. Avoid freeze / thaw cycle. |
| Storage buffer | $\mathrm{pH}: 7.00$ |
|  | Preservative: $0.01 \%$ Thimerosal (merthiolate) |
|  | Constituents: $78.99 \%$ PBS, $1 \% \mathrm{BSA}, 20 \%$ Glycerol (glycerin, glycerine) |
| Purity | Immunogen affinity purified |
| Clonality | Polyclonal |
| Isotype | $\operatorname{lgG}$ |

Applications

## The Abpromise guarantee

 Our Abpromise guarantee covers the use of ab127002 in the following tested applications.The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

| Application | Abreviews | Notes |
| :--- | :--- | :--- |
| WB |  | $1 / 500-1 / 3000$. Predicted molecular weight: 121 kDa. |

## Target

| Relevance | Members of the semaphorin protein family are involved in axonal guidance during neural |
| :--- | :--- |
| development. Semaphorin 5a is thought to have a bifunctional role in axon guidance, exerting both |  |
| attractive and inhibitory effects on developing axons associated with limbic function. The |  |
| thrombospondin repeats of Semaphorin 5a physically interact with both heparan sulfate |  |
| proteoglycans and chondroitin sulfate proteoglycans, inducing attractive and inhibitory guidance |  |
| cues, respectively. The biological responses to Semaphorin 5a are induced through binding to its |  |
| high-affinity receptor, plexin B3, triggering intracellular signaling through Met. |  |
| Cellular localization | Membrane; single-pass type I membrane protein |

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

## Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
