

## Product datasheet

# Immobilized Protein G Agarose Beads ab174816

### Overview

---

<b>Product name</b>	Immobilized Protein G Agarose Beads
<b>General notes</b>	Protein G Agarose is useful for affinity purification of IgG from many mammalian species. The Protein G agarose is supplied as 50 $\mu$ L beads in 500 $\mu$ L of buffer (buffer consists of 1X HEPES-buffered saline with 0.02% sodium azide). Store at 4°C.

### Properties

---

<b>Form</b>	Liquid
<b>Storage buffer</b>	Preservative: 0.02% Sodium azide Constituent: HEPES buffered saline

**Please note:** All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

### Our Abpromise to you: Quality guaranteed and expert technical support

---

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

### Terms and conditions

---

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
