Multidrug Resistance and ABC Transporters Conference

Best Western Hotel & Conference Center
Baltimore, Maryland
November 5, 2008 9:00am to 6:00pm

Organized by Dr. Suresh V. Ambudkar (National Cancer Institute, NIH) and Abcam, Inc.

Invited Speakers:
• **Keynote:** Dr Michael M. Gottesman (National Cancer Institute, NIH)
  *Current status of multidrug resistance and ABC transporters*
• **Dr. Suresh V. Ambudkar** (National Cancer Institute, NIH)
  *Mechanism of Action of multidrug resistance-linked ABC drug transporters*
• **Dr. Robert B. Innis** (National Institute of Mental Health, NIH)
  *Positron emission tomographic imaging of drug efflux transporters*
• **Dr. Gilbert J. Burckart** (U.S. Food and Drug Administration)
  *Drug-drug interactions and regulatory implications for membrane transporter substrates in drug development*
• **Dr. Maria R. Baer** (University of Maryland Greenebaum Cancer Center)
  *Clinical and therapeutic implications of multidrug resistance-associated ABC drug transporters*
• **Dr. David S. Miller** (National Institute of Environmental Health Sciences, NIH)
  *Regulation of P-glycoprotein and other ABC drug transporters at the blood-brain barrier*

Meeting Focus
The meeting will cover multidrug resistance in cancer and ABC transporters - basic, clinical, regulation and drug-drug interaction aspects.

Call for Papers
Abstracts for oral presentation and posters which fit within the theme of the meeting are invited.

**Oral abstract deadline:** Aug 5, 2008  **Poster abstract deadline:** Oct 5, 2008

Early bird discount rate available until September 5, 2008.
