

Product datasheet

Alkaline Phosphatase Anti-S tag antibody ab133157

Overview

Product name	Alkaline Phosphatase Anti-S tag antibody
Description	Alkaline Phosphatase Rabbit polyclonal to S tag
Host species	Rabbit
Conjugation	Alkaline Phosphatase
Tested applications	Suitable for: WB, ELISA
Species reactivity	Reacts with: Species independent
Immunogen	S tag sequence KETAAAKFERQHMS

General notes

Reproducibility is key to advancing scientific discovery and accelerating scientists' next breakthrough.

Abcam is leading the way with our range of recombinant antibodies, knockout-validated antibodies and knockout cell lines, all of which support improved reproducibility.

We are also planning to innovate the way in which we present recommended applications and species on our product datasheets, so that only applications & species that have been tested in our own labs, our suppliers or by selected trusted collaborators are covered by our Abpromise™ guarantee.

In preparation for this, we have started to update the applications & species that this product is Abpromise guaranteed for.

We are also updating the applications & species that this product has been "predicted to work with," however this information is not covered by our Abpromise guarantee.

Applications & species from publications and Abreviews that have not been tested in our own labs or in those of our suppliers are not covered by the Abpromise guarantee.

Please check that this product meets your needs before purchasing. If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, as well as customer reviews and Q&As.

Properties

Form	Lyophilized: Prior to use, reconstitute to 1 mL with ddH ₂ O, vortex gently and allow material to
-------------	--

reconstitute for 20 minutes. Avoid exposure to heat. After product has been reconstituted, store at 2-8°C in the dark and use within 6 months. For extended storage, add an equal volume of glycerol (ACS grade) for a final concentration of 50%, and store at -20 degrees Celsius. Prepare a working dilution daily.

Storage instructions	Shipped at 4°C. Store at +4°C short term (1-2 weeks). Store at -20°C or -80°C. Avoid freeze / thaw cycle.
Storage buffer	pH: 7.40 Preservative: 0.013% Sodium azide Constituents: 0.3% Tris, 0.88% Sodium chloride, 0.047% Magnesium chloride, 0.0016% Zinc chloride
Clonality	Polyclonal
Isotype	IgG

Applications

Our [Abpromise guarantee](#) covers the use of **ab133157** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Application	Abreviews	Notes
WB		1/5000 - 1/50000. Starting dilution: 1/2000
ELISA		1/5000 - 1/50000.

Target

Relevance	S tag is an epitope tag composed of a 15 residue peptide, KETAAAKFERQHMS, derived from the pancreatic ribonuclease A.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
