

## Product datasheet

# Schneider L2 whole cell lysate ab14893

### Overview

---

<b>Product name</b>	Schneider L2 whole cell lysate
<b>General notes</b>	Extracts have been quality control tested by Western blot and the Electrophoretic Mobility Shift Assay (EMSA). To ensure stability, we recommend aliquoting the extracts into single-use fractions and then storing them at -80°C.

### Properties

---

<b>Form</b>	Liquid
<b>Storage instructions</b>	Shipped on dry ice. Upon delivery aliquot and store at -80°C. Avoid freeze / thaw cycles.
<b>Storage buffer</b>	pH: 7.90 Constituents: 0.48% HEPES, 0.75% Potassium chloride, 0.01% Magnesium chloride, 20% Glycerol, 0.009% PMSF, 0.008% DTT
<b>Purity</b>	Whole Cell Lysate
<b>Background</b>	This permanent line is derived from a primary culture of late stage (L2) (20-24 hours old) <i>Drosophila melanogaster</i> embryos (Schneider, 1972) prepared in Scheiders insect medium. It is a positive control for the transcription factor GAGA <a href="#">ab11962</a> .

**Please note:** All products are "FOR RESEARCH USE ONLY AND ARE NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE"

### Our Abpromise to you: Quality guaranteed and expert technical support

---

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
  
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.com/abpromise> or contact our technical team.

### Terms and conditions

---

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
