Product datasheet

Anti-SNAIL + SLUG antibody ab180714

Overview

Product name: Anti-SNAIL + SLUG antibody
Description: Rabbit polyclonal to SNAIL + SLUG
Host species: Rabbit
Tested applications: Suitable for: IHC-Fr, WB, ICC/IF, IHC-P
Species reactivity: Reacts with: Mouse, Rat, Human
Immunogen: Synthetic peptide within Human SNAIL+SLUG aa 236-264. The exact sequence is proprietary. Database link: O95863
Positive control: WB: HeLa, A431, MCF7, K563, SW620 and HepG2 cell lysates; mouse lung, mouse heart and rat liver tissue lysates. IHC-P: Human kidney, human colon carcinoma, mouse testis and rat brain tissues.

Properties

Form: Liquid
Storage instructions: Shipped at 4°C. Store at 4°C (stable for up to 12 months). Upon delivery aliquot. Store at -20°C long term. Avoid freeze / thaw cycle.
Storage buffer: pH: 7.3
Preservative: 0.02% Sodium azide
 Constituents: 50% Glycerol, 49% PBS
Purity: Immunogen affinity purified
Clonality: Polyclonal
Isotype: IgG

Applications

Our Abpromise guarantee covers the use of ab180714 in the following tested applications.
The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Function: SNAIL is involved in the epithelial to mesenchymal transition (EMT) and formation and maintenance of embryonic mesoderm (By similarity). Binds to 3 E-boxes of the E-cadherin gene promoter and represses its transcription. SLUG is a transcriptional repressor, involved in the generation and migration of neural crest cells. PTM: SNAIL is phosphorylated by GSK3B. Once phosphorylated, it becomes a target for BTRC ubiquitination. Ubiquitinated on Lys-98, Lys-137 and Lys-146 by FBXL14 and BTRC leading to degradation. BTRC-triggered ubiquitination requires previous GSK3B-mediated SNAI1 phosphorylation. Similarity: Both SNAIL and SLUG belong to the snail C2H2-type zinc-finger protein family. Tissue specificity: SNAIL is expressed in a variety of tissues with the highest expression in kidney. Expressed in mesenchymal and epithelial cell lines. SLUG is expressed in placenta and adult heart, pancreas, liver, kidney and skeletal muscle.

Cellular localization
Slug is generally nuclear, while Snail is known to be both cytoplasmic and nuclear. Once phosphorylated (probably on Ser-107, Ser-111, Ser-115 and Ser-119) snail is exported from the nucleus to the cytoplasm where subsequent phosphorylation of the destruction motif and ubiquitination involving BTRC occurs.

Images

Anti-SNAIL + SLUG antibody (ab180714) at 1/500 dilution + Mouse heart tissue extracts

**Predicted band size:** 29 kDa
Western blot - Anti-SNAIL + SLUG antibody (ab180714)

All lanes: Anti-SNAIL + SLUG antibody (ab180714)

Lane 1: HeLa cell lysate
Lane 2: A431 cell lysate
Lane 3: HepG2 cell lysate
Lane 4: Mouse lung tissue lysate
Lane 5: Rat liver tissue lysate

Predicted band size: 29 kDa

Immunohistochemical analysis of paraffin-embedded mouse testis tissue labeling SNAI1+SLUG with ab180714 at 1/50 dilution.
ab180714 staining SNAIL in human MCF10A cells by ICC/IF (Immunocytochemistry/immunofluorescence). Cells were fixed with 3.7% PFA in PBS for 15 minutes and blocked with 0.1% Milk + 0.1% Tween in PBS for 30 minutes at 25°C. Samples were incubated with primary antibody (1/1000 in PBS + 0.1% Tween) for 16 hours at 4°C. An Alexa Fluor® 488-conjugated donkey anti-rabbit IgG polyclonal (1/500) was used as the secondary antibody.

Immunohistochemical analysis of paraffin-embedded rat brain tissue labeling SNAIL + SLUG with ab180714 at 1/100 dilution.

Western blot analysis of extracts of various cell lines using ab180714 at the dilution 1/500.
ab180714 staining SNAIL in Mouse kidney tissue sections by Immunohistochemistry (IHC-P - paraformaldehyde-fixed, paraffin-embedded sections). Tissue was fixed with formaldehyde; antigen retrieval was by heat mediation in a basic buffer (TRIS+EDTA, pH9). Samples were incubated with primary antibody (1/500 in antibody diluent) for 1 hour. An undiluted HRP-conjugated Goat anti-rabbit IgG polyclonal was used as the secondary antibody.

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) analysis of human kidney tissue labelling SNAIL with ab180714. Tissue was fixed with formaldehyde and blocked with 5% BSA for 20 min at room temperature; antigen retrieval was by heat mediation with EDTA buffer (pH 9.0). Samples were incubated with primary antibody (1/100) for 12 hours at 4°C. A Biotin-conjugated mouse anti-rabbit IgG polyclonal (1/200) was used as the secondary antibody. Magnification: 200X.
Immunohistochemical analysis of paraffin-embedded human colon carcinoma tissue labeling SNAIL + SLUG with ab180714 at 1/100 dilution.

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) - Anti-SNAIL + SLUG antibody (ab180714)

Western blot - Anti-SNAIL + SLUG antibody (ab180714)

Lane 1: Snail recombinant 0.1 ug (55 kDa)
Lane 2: Slug recombinant 0.1 ug (56 kDa)

Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) analysis of human kidney tissue labelling SNAIL with ab180714. Tissue was fixed with formaldehyde and blocked with 5% BSA for 20 min at room temperature; antigen retrieval was by heat mediation with EDTA buffer (pH 9.0). Samples were incubated with primary antibody (1/100) for 12 hours at 4°C. A Biotin-conjugated mouse anti-rabbit IgG polyclonal (1/200) was used as the secondary antibody. Magnification: 400X.
ab180714 staining SNAIL in mouse embryonic heart tissue sections by Immunohistochemistry (IHC-Fr - frozen sections). Tissue was fixed with paraformaldehyde and blocked with 1% BSA for 30 minutes at room temperature. Samples were incubated with primary antibody (1/100 in blocking buffer) for 16 hours at 4°C. An undiluted Alexa Fluor® 488-conjugated donkey anti-rabbit IgG polyclonal was used as the secondary antibody.

Please note: All products are “FOR RESEARCH USE ONLY AND ARE NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE”

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
