Product datasheet

Anti-Tenascin C antibody [T2H5] ab3970

Overview

Product name: Anti-Tenascin C antibody [T2H5]
Description: Mouse monoclonal [T2H5] to Tenascin C
Host species: Mouse
Tested applications: Suitable for: IHC-P, IP, WB, ICC/IF
Species reactivity: Reacts with: Human
Immunogen: Full length native protein (purified from a homogenate of a mammary tumour specimen) (Human).
Positive control: Human tonsil tissue
General notes: Tenascin is a high molecular weight, multifunctional, hexameric extracellular matrix glycoprotein expressed in association with mesenchymal epithelial interactions during development and in the neovascularure and stroma of undifferentiated tumors. It has been described under a variety of names: cytotactin, hexabrachion protein, J1, myotendinous antigen (MI) and glioma mesenchymal extracellular matrix (GMEM). The tenascin molecule is a disulfide-linked hexamer. The expression of tenascin is associated with development and growth, both normal and pathological, whereas the distribution in normal adult tissue is restricted.

Properties

Form: Liquid
Storage instructions: Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.
Storage buffer: pH: 7.40
Preservative: 0.097% Sodium azide
Constituent: PBS
Purity: >95% by SDS-PAGE
Purification notes: Purified from hybridoma culture supernatant by protein A-affinity chromatography.
Primary antibody notes: Tenascin is a high molecular weight, multifunctional, hexameric extracellular matrix glycoprotein expressed in association with mesenchymal epithelial interactions during development and in the neovasculature and stroma of undifferentiated tumors. It has been described under a variety of names: cytotactin, hexabrachion protein, J1, myotendinous antigen (MI) and glioma mesenchymal extracellular matrix (GMEM). The tenascin molecule is a disulfide-linked hexamer. The expression
of tenascin is associated with development and growth, both normal and pathological, whereas the distribution in normal adult tissue is restricted.

Clonality: Monoclonal
Clone number: T2H5
Myeloma: unknown
Isotype: IgG1
Light chain type: unknown

Applications

Our Abpromise guarantee covers the use of ab3970 in the following tested applications.
The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

Target

Function: Extracellular matrix protein implicated in guidance of migrating neurons as well as axons during development, synaptic plasticity as well as neuronal regeneration. Promotes neurite outgrowth from cortical neurons grown on a monolayer of astrocytes. Ligand for integrins alpha-8/beta-1, alpha-9/beta-1, alpha-V/beta-3 and alpha-V/beta-6.

Cellular localization: Secreted > extracellular space > extracellular matrix.

Images
Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) - Anti-Tenascin C antibody [T2H5] (ab3970)

ab3970 staining paraffin embedded tissue sections.

Western blot - Anti-Tenascin C antibody [T2H5] (ab3970)

Anti-Tenascin C antibody [T2H5] (ab3970) at 1 µg/ml + U2OS (Human osteosarcoma cell line) Whole Cell Lysate at 10 µg

Secondary
Goat Anti-Mouse IgG H&L (HRP) preadsorbed (ab97040) at 1/5000 dilution

Developed using the ECL technique.

Performed under reducing conditions.

**Observed band size:** 265 kDa

**why is the actual band size different from the predicted?**

**Additional bands at:** 34 kDa. We are unsure as to the identity of these extra bands.

**Exposure time:** 20 minutes

Tenascin C contains an extensive number of potential glycosylation sites (SwissProt) which may explain its migration at a higher molecular weight than predicted.

**Please note:** All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"
Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours

- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.com/abpromise or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
